

MODEL BUILDING- SAVING THE MODEL

Date	8 November 2022
Team ID	PNT2022TMID29231
Project Name	Project - A Gesture-based Tool for Sterile Browsing of Radiology Images

The screenshot shows a Jupyter Notebook interface with a dark theme. The title bar at the top reads "Untitled8.ipynb" with a star icon. Below the title bar is a menu bar with options: File, Edit, View, Insert, Runtime, Tools, Help, and a link "All changes saved". On the right side of the title bar are icons for Comment, Share, and Settings. Below the menu bar is a toolbar with "+ Code" and "+ Text" buttons. On the right side of the toolbar are RAM and Disk usage indicators, a pencil icon for Editing, and an upward arrow. The left sidebar contains icons for a file explorer, search, and other notebook functions. The main area displays a code cell with the following Python code:

```
# Save the model
model.save('gesture.hs')
model_json = model.to_json()
with open("model-bw.json", "w") as json_file:
    json_file.write(model_json)
```

Below the code cell, a status bar shows "0s completed at 8:39 PM" and a "Show desktop" button.
