

IMPORTING THE IMAGE DATA GENERATOR LIBRARY

Date	11 November 2022
Team ID	PNT2022TMID29231
Project Name	Project - A Gesture-based Tool for Sterile Browsing of Radiology Images

The screenshot displays a Jupyter Notebook environment. The top bar shows the file name 'Untitled8.ipynb' and a star icon. Below this is a menu bar with options: File, Edit, View, Insert, Runtime, Tools, Help, and Saving... On the right side of the top bar, there are icons for Comment, Share, and a user profile. The main area of the notebook is a code editor with a dark background. It contains a single line of Python code: `from tensorflow.keras.preprocessing.image import ImageDataGenerator`. The code is highlighted with a yellow background. To the left of the code editor, there is a sidebar with icons for File Explorer, Search, and Run. At the bottom of the notebook, there is a status bar that says '0s completed at 9:33 PM' and a 'Chat' button.

```
from tensorflow.keras.preprocessing.image import ImageDataGenerator
```
