

DATA COLLECTION – CONFIGURING THE IMAGE DATA GENERATOR CLASS

Date	12 November 2022
Team ID	PNT2022TMID29231
Project Name	Project - A Gesture-based Tool for Sterile Browsing of Radiology Images

The screenshot shows a Jupyter Notebook titled 'Untitled8.ipynb' with a dark theme. The code is written in a cell and is as follows:

```
train_datagen = ImageDataGenerator(rescale=1./255,
                                   shear_range=0.2,
                                   zoom_range=0.2,
                                   horizontal_flip=True)
test_datagen = ImageDataGenerator(rescale=1./255)
```

The notebook interface includes a top menu bar with 'File', 'Edit', 'View', 'Insert', 'Runtime', 'Tools', and 'Help'. On the right, there are buttons for 'Comment', 'Share', and a settings icon. Below the menu, there are tabs for '+ Code' and '+ Text'. A status bar at the bottom indicates '0s completed at 9:37 PM'.
